

1 Website Accessibility

Everstorm Outfitters maintains a website that meets WCAG 2.1 Level AA standards across all pages, including product listings, checkout, and account management. The site has been tested for compatibility with NVDA, JAWS, and VoiceOver screen readers. Full keyboard navigation is supported throughout, allowing customers to browse, add items to cart, and complete purchases without a mouse. A high-contrast mode toggle is available in the footer on every page. Text can be resized up to 200% without loss of content or functionality. All product images include descriptive alt text written by our content team. To report a technical accessibility barrier, see Section 6.

2 Adaptive Gear Line

Everstorm designs and stocks a dedicated line of gear built to reduce fine-motor demands and improve ease of use for a wide range of customers. Current adaptive products include:

- Summit Shell Jacket — magnetic front closure replaces a traditional zipper, allowing single-handed or low-dexterity operation; available in sizes XS–3XL; \$189
- TrailReady Pants — elastic waistband paired with a one-hand-friendly drawcord system; no buttons or snaps; available in regular and long inseams; \$119
- Base Layer Set — all zippers feature oversized loop pulls; fully tagless construction eliminates skin irritation; top and bottom sold separately from \$54
- Summit Gloves — secure Velcro cuff removes fiddly buckle closures; available in sizes XS–XXL; \$49
- Trekking Pack 32L — magnetic sternum strap buckle connects with light pressure; padded easy-grip hip belt requires no precise alignment; \$215
- Approach Shoe — BOA Fit System lacing provides precise, tool-free adjustment with one hand, replacing traditional laces entirely; available in half sizes; \$164

All adaptive gear products are tagged on the site under the filter category Adaptive Fit, accessible at everstorm.example/adaptive.

3 In-Store Assistance

All Everstorm retail locations are fully accessible. Every store features ramps at all entrances, wide aisles accommodating wheelchairs and other mobility aids, and accessible restrooms. Private fitting rooms are available at each location and can be reserved in advance by calling the store directly. Staff at every location complete adaptive fitting training, covering product-specific guidance for customers with limited dexterity, vision differences, or other access needs. No appointment is required, though scheduling a fitting session in advance is encouraged to ensure dedicated staff time. Store locations and hours are listed at everstorm.example/stores.

4 Phone and Chat Ordering

Customers who prefer not to order online can access the full Everstorm catalog by phone. Call +1 (406) 555-0100, Monday through Friday, 8:00 am to 7:00 pm Mountain Time. A trained staff member will walk through available products, sizes, colors, and pricing, and will complete the order while you remain on the line. Order confirmation and tracking information will be sent by email or read back by phone upon request. Live chat is also available during the same hours at everstorm.example/chat and is compatible with major screen readers.

5 Large-Print Catalog

A large-print version of the Everstorm seasonal catalog is available at no charge in two formats. Customers may request a printed copy mailed to any U.S. address, or an accessible PDF formatted for large-print viewing sent by email. Both formats feature 18-point minimum body text, high-contrast page design, and clearly organized product sections. To place a request, contact access@everstorm.example with your name, preferred format, and mailing or email address. Catalogs are typically dispatched or delivered within five business days of request.

6 Accessibility Feedback

Everstorm is committed to identifying and removing barriers across our website, products, and in-store experience. Customers who encounter any accessibility issue are encouraged to report it by emailing access@everstorm.example. All reports receive a substantive response within 7 business days. Submitted feedback is reviewed by both the web development team and the product design team on a monthly basis. Where a reported barrier affects multiple customers, corrective action is prioritized in our next scheduled update cycle. We welcome both specific technical reports and general suggestions.

7 Community Partnerships

Everstorm directs 2% of all adaptive gear line revenue each calendar year to two nonprofit partners: the Challenged Athletes Foundation and Paradox Sports. These organizations fund equipment grants, training programs, and competitive opportunities for athletes with physical disabilities. In addition, Everstorm sponsors 10 adaptive athletes annually, providing gear, event registration support, and co-marketing opportunities. Information about our sponsored athletes and partnership programs is available at everstorm.example/community.

8 Contact

For all accessibility-related inquiries, reach our dedicated accessibility team through the following channels:

- Email: access@everstorm.example
- Phone: +1 (406) 555-0212, Monday through Friday, 8:00 am to 7:00 pm Mountain Time
- General customer service: +1 (406) 555-0100
- Online feedback form: everstorm.example/accessibility-feedback
