

1 Creating an Account

To shop with Everstorm Outfitters, create a free account at everstorm.example/signup. After submitting your name, email address, and password, you will receive a verification email within a few minutes. You must confirm your address within 24 hours or the account will be deactivated and you will need to register again. Alternatively, you may sign in instantly using Google Sign-In or Sign in with Apple, which bypasses the manual verification step.

2 Password Requirements

All direct-login passwords must meet the following criteria:

- Minimum length of 12 characters
- At least 1 uppercase letter (A–Z)
- At least 1 number (0–9)
- At least 1 special character from the set: ! @ # \$ % ^ & *
- Must not contain any part of your registered email address

Passwords that do not meet these requirements will be rejected at the time of creation or update. We recommend using a dedicated password manager to generate and store strong credentials.

3 Two-Factor Authentication (2FA)

Two-factor authentication is optional but strongly recommended for all accounts. Once enabled, you will be prompted for a second verification code at every login. Supported methods include:

- Authenticator app (Google Authenticator or Authy) — generates a new 6-digit code every 30 seconds
- SMS text message — a code is sent to your verified mobile number

To enable 2FA, visit everstorm.example/account/security and follow the on-screen setup instructions. You may disable or switch methods from the same page at any time.

4 Forgot Password

If you cannot remember your password, click the "Forgot Password" link on the login page. A reset link will be sent to your registered email address within 2 minutes. That link is valid for 60 minutes from the time it is issued and may only be used once. If the link expires before you use it, simply request a new one. For social login accounts, use the Google or Apple recovery flow instead.

5 Account Lockout

To protect against unauthorized access, your account will be locked for 30 minutes after 5 consecutive failed login attempts. During the lockout window, no login attempts will be accepted. After 30 minutes you may retry

your credentials normally, or you may immediately bypass the lockout by using the Forgot Password flow described in Section 4.

6 Security Alerts

Everstorm Outfitters automatically sends an email notification to your registered address whenever any of the following events occur:

- First login detected from a new or unrecognized device
- Billing address is changed on your account
- Account password is changed
- An order is placed totaling more than \$200

If you receive an alert for an action you do not recognize, reply to the message immediately or contact our security team using the information in Section 10. Do not ignore unrecognized alerts.

7 Stored Payment Methods

Everstorm Outfitters is PCI DSS Level 1 compliant. When you save a payment method to your account, your full card number is never stored on our servers. All payment details are tokenized through our payment processor, and we retain only the last 4 digits of your card number and the card type (e.g., Visa, Mastercard) for display purposes. You may add, remove, or update saved payment methods at any time from your account dashboard.

8 Closing Your Account

To request account closure, submit a request at everstorm.example/account/close while logged in. A 30-day cooldown period begins immediately after submission, during which you may cancel the request and reactivate your account with no data loss. After 30 days, your profile and personal data will be deleted. Order history is retained for 7 years following your final purchase in accordance with applicable U.S. tax recordkeeping law.

9 Social Login

Google Sign-In and Sign in with Apple are both supported as login methods. You may link or unlink either provider from your account settings page at everstorm.example/account/security. If you registered via a social login and later want a standalone password, you can add one at any time without unlinking your social provider. Both methods can remain active simultaneously.

10 Contact

For account security questions or to report suspicious activity, reach our team through the following channels:

- Email: security@everstorm.example (response within 4 business hours)
- Fraud Hotline: +1 (406) 555-0209, available 24 hours a day, 7 days a week
